Technology Funds  
for Your **School or Library**  
are Everywhere...

You Just Have to Know  
HOW to Find Them!

Learn How at  
The Education Technology  
Funding Workshop Series.

Believe it or not, all kinds of funding sources—E-rate and more—are available to help your school or library get the networking technology it needs. Trouble is, how do you decide which direction to go? Should you apply for a bond or a grant? How do you track down resources when they vary from state to state? What's the best way to apply for the funds you need—and how can you improve your chances of getting them?

To break through all the confusion of technology funding, don't miss the Education Technology Funding Workshop Series, brought to you by Cisco Systems. These workshops are designed for K through 12 superintendents, assistant superintendents, finance directors, IT professionals, librarians—in short, anyone in your school or library who secures funds for technology. Attend these essential workshops—either in person or online—and in a very short time, you'll be on your way to playing the funding game successfully.

## **A Wealth of Information from Two Different Workshops**

This important series of workshops is presented by Funds For Learning, one of the leading organizations for helping schools and libraries receive education funding. Each workshop covers a variety of timely, crucial topics that will give you valuable insight into the ins and outs of funding requirements.

### **Workshop One:**

## **Winning the Funding Game**

- Learn how to create a technology funding strategy
- Discover how to apply for and win state and federal grants
- Find out about bonds and referenda, and how to use them for technology purchases
- Understand why it makes sense to lease technology equipment
- Hear how other schools have successfully obtained funding

### **Workshop Two:**

## **E-rate In Year 5 / CIPA Compliance**

- Find out the latest changes to the E-rate program, including CIPA compliance (a new Year 5 requirement if you've received funds in Year 4)
- Learn how to fill out the new Form 486, which includes the CIPA certification (for many E-rate recipients, this needs to be completed by October 28, 2001)
- Get your E-rate questions answered by E-rate experts

## Register Today

Over 50 Education Technology Fund Workshops will be presented from late September through early November, in cities across the U.S. If you're unable to attend in person, you can attend online, using your Internet connection and your phone. Go to [www.regweb.com/cisco/TechFund\\_Workshops](http://www.regweb.com/cisco/TechFund_Workshops) to find a complete schedule, including dates, times, and locations for each workshop. You can then register instantly on the Web.

## Don't Miss Out!

If you don't want to miss out on your share of technology funds, don't miss these workshops. Visit [www.regweb.com/cisco/TechFund\\_Workshops](http://www.regweb.com/cisco/TechFund_Workshops) and register now!
